INTRODUCTION AND ACKNOWLEDGEMENTS

The purpose of this publication, which is published on a quarterly basis, is to present statistical information of a socio-economic nature in order to meet the needs of a wide variety of governmental and private users.

A computerized system is responsible for producing the photo-ready copy of the Review. The information in this publication is derived from three principle sources – Statistics Canada, the Manitoba Bureau of Statistics, and various other provincial government departments and agencies. The assistance of all contributors to the Review is gratefully acknowledged.

Users seeking further technical information concerning coverage, reliability, methodology, etc., are advised to consult the original source, found at the bottom of each table. Users with suggestions for improvement or comments, please contact the Manitoba Bureau of Statistics at (204) 945 – 2985 or write the address below.

GENERAL PRINCIPLES FOR THE MANITOBA STATISTICAL REVIEW

The following are the general principles under which this publication operates.

1. General Statistics Only

   Only statistics of general public interest are included in the Review. Specific sectoral statistics should be found in various Manitoba departmental or Statistics Canada publications. The appearance of data in the Review does not necessarily reflect acceptance of the data by the Manitoba Bureau of Statistics. On request, the Bureau will provide a statement regarding the reliability of data appearing in the Review.

2. Comprehensive and Timely

   The Review contains sections on demographic and labour force data; economic and price statistics, financial and taxation statistics; sectoral statistics (agriculture, forestry, fishing and trapping, manufacturing, mineral, energy, construction and housing, and retail trade); social statistics (health and hospital, education, corrections, and welfare); and governmental statistics. It is published three months after the end of the quarter for which data is available.

3. Special papers on Current Economic and Statistical Issues

   The Manitoba Statistical Review contains special papers each quarter dealing with current economic issues or statistical developments. The papers are general in nature and are written for layperson comprehension. The views expressed by the author(s) of the special articles published in the Manitoba Statistical Review are their own and do not necessarily reflect those of the Department of Industry, Trade and Tourism, or the Government of Manitoba.

4. Manitoba Bureau of Statistics Data Integrated into the Review

   The Manitoba Bureau of Statistics current surveys have been integrated into the Review, e.g., prices survey of food. In addition, Tables 19, 20 and 21 provide summary information on the provincial economy from the Manitoba Provincial Economic Accounts.

TABLES:

Section I. Population and Labour Force Statistics 1

Section II. Economic Statistics 21

Section III. Sectoral Statistics 43

TABLES

PAGE

SECTION I. POPULATION AND LABOUR FORCE STATISTICS

A. Population Statistics

1. Estimated Population of Canada, by Province and Territory 3
2. Estimated Population by Sex and Age Group, Manitoba 4
3. Estimates of Population, Census Metropolitan Areas 5
4. Vital Statistics, Manitoba 6
5. Quarterly Interprovincial Migration Estimates 7
6. Manitoba Demographic Statistics 8

B. Labour Force Statistics

7. Estimated Population 15 Years Old and Over, Unadjusted Labour Force and Employed Labour Force by Sex, Manitoba 9
8. Labour Force, Employed, Unemployed, Participation Rate and Unemployment Rate, Unadjusted and Seasonally Adjusted, Manitoba 10
9. Actual Employed and Unemployed Labour Force, Manitoba Official Regions 11
10. Actual Labour Force, by Province 12
11. Actual Employed Labour Force, by Province 13
12. Actual Unemployment Rate, by Province 14
13. Actual Employed Labour Force, by Industry, Manitoba 15
14. Actual Employed Labour Force, by Occupation, Manitoba 17
15. Unemployment Insurance Claims and Benefits Statistics, Manitoba 18
16. Work Stoppages in Manitoba, by Industry 19

SECTION II. ECONOMIC STATISTICS

A. Aggregate Income Statistics

17. Canadian Gross Domestic Product and Income Components 23
18. Canadian Gross Domestic Product and Expenditure Components 24
19. Manitoba Gross Domestic Product and Income Components 25
20. Manitoba Gross Domestic Product and Expenditure Components 26
21. Gross Domestic Product at Factor Cost by Industry, Manitoba 27

SECTION II. ECONOMIC STATISTICS (continued) PAGE

B. Earnings Statistics

22. Average Weekly Earnings, by Industry, Manitoba 28
23. Average Weekly Earnings, Industrial Aggregate, by Province 29
24. Labour Income by Component and Wages and Salaries by Industry, Unadjusted, Manitoba 30
25. Income Tax Statistics, by Selected Sources of Income, Non-refundable Tax Credits, and Deductions, All Returns, Manitoba 31
26. Income Tax Statistics, All Returns, By Major Urban Centres, Manitoba 32
27. Income Tax Statistics, Taxable Returns, By Income, Manitoba 33
28. Income Tax Statistics, All Returns, By Census Division, Manitoba 34

C. Price Statistics

29. Consumer Price Index for Manitoba by Major Component 35
30. Consumer Price Index for Canada by Major Component 36
31. Food for Home Consumption Spatial Retail Price Indices for Selected Manitoba Communities 37
32. Inter-City Indices of Retail Price Differentials, for Selected Groups of Consumer Goods and Services 38
33. Survey of House Prices, for Selected Canadian Cities 39

D. Investment and Financial Statistics

34. Total Capital Investment by Province 40
35. Capital Investment, by Type and Industry, Manitoba 41
36. Manitoba Government Expenditure and Revenue Estimates 42

SECTION III. SECTORAL STATISTICS

A. Agricultural Statistics

37. Farm Cash Receipts, by Product, Manitoba 45
38. Farm Cash Receipts, by Crop, Manitoba 46
39. Farm Cash Receipts, by Livestock and Product, Manitoba 47
40. Total Farm Cash Receipts, by Province 48
41. Net Farm Income by Component, Manitoba 49

SECTION III. SECTORAL STATISTICS (continued) PAGE

B. Manufacturing and Energy Statistics

42. Value of Manufacturing Shipments, by Province of Origin 50
43. Manufacturing Shipments, by Industry Group, Manitoba 51
44. Principal Manufacturing Statistics, Manitoba 53
45. Principal Statistics, by Major Industry Group, Manitoba 54
46. Average Hourly Earnings, Manufacturing, by Province 55
47. Electric Energy Made Available for Use in Manitoba 56
48. Mineral Production, by Product, Manitoba 57

C. Construction Statistics

49. Value of Building Permits, by Province 58
50. Value of Building Permits, by Type, Manitoba 59
51. Value of Building Permits, by Type, Winnipeg 60
52. Dwelling Unit Starts, by Type, Manitoba 61
53. Dwelling Unit Starts, by Type, Winnipeg 62
54. Dwelling Unit Starts, in Urban Centres, Manitoba 63
55. Dwelling Unit Starts, by Province 64
56. Dwelling Unit Starts, in Urban Centres of 10,000 Population and Over, by Province 65

D. Retail Trade Statistics

57. Value of Retail Trade, by Selected Types of Business, Manitoba 66
58. Value of Retail Trade, by Province (Seasonally-Adjusted Data) 67
59. Value of Retail Trade, by Province (Actual Data) 68
60. Sales of New Motor Vehicles, by Type, Manitoba 69

SPECIAL SECTION

THE 2001 CENSUS

On May 15, 2001, Canadians will be making an investment that will pay dividends until well into the new millenium. For the individual, the cost is low. A few minutes of time and a detour to the nearest mail box is all that is required. But the returns on this modest investment are high. The information that is culled from the Census results has so many applications, there simply is no substitute for it.

As a resident of Manitoba, you have a strong personal stake in making sure that the provincial count is as complete as possible. Manitoba Finance officials estimate that each person who is missed in the 2001 Census will cost the Manitoba treasury almost $32,000 in lost transfer payments over the next five year period. Transfer payment funds are applied towards education, daycare, highways and other important provincial and municipal services.

The first Census in Canada was taken in 1666 in New France when the population was only 3,215, excluding aboriginal and military personnel. Until 1867, many Censuses were taken at irregular intervals in the colonies of France and Britain. The British North American Act of 1867 required that a Census be taken every ten years to determine representation by population in the new parliament. The first census after Confederation was taken in 1871. It counted the population of the four original provinces (New Brunswick, Nova Scotia, Ontario and Quebec).

The 1881 Census, the first Census taken in Manitoba counted 65,954 Manitobans while the 2001 Census is expected to count over 1.1 million Manitobans.

A mid-decade Census was introduced in 1906 in order to measure the rapid growth taking place on the prairies (Manitoba, Saskatchewan and Alberta) as land opened up for settlement. Sample information was collected as part of the Census for the first time in 1941. A 10% sample was used to collect information on 27 subjects related to dwellings (i.e., type of dwelling, number of rooms, type of fuel).

A sample is still used to collect more detailed information on the population; in 2001, one in five households will receive a questionnaire of 58 questions that collect details on education, ethnic background, income and much more.

The 1956 Census was the first to combine both the Census of Population and Census of Agriculture and replaced the mid-decade census for the prairies with one that covered the entire country. Major changes in birth rate, migration to cities and high immigration made the national mid-decade Census necessary and it has been retained.

The data collected by the Census provides a wealth of information for Canadian businesses. The Census is the only source available for data on small areas in terms of geographics, family type and household income, and the education and training level of potential workers. Any business that has considered establishing a new location, introducing a new product or seeking a fresh investment opportunity can use Census data. The uses to which Census data can be applied in a business environment is virtually unlimited.

Census data is an absolute essential resource in understanding housing markets. Comparing demographic and housing data from various censuses can identify significant trends and predict patterns of housing demands for the future. Whether you're looking at housing for seniors, the demand for specific types of units, or the impact of baby boomers on the market, the Census is the basis for analysis. The Census is not a luxury. It's essential for the prediction of trends in housing markets.

The Census provides us with invaluable data on the population of Manitoba. For example, using Census data makes it possible to identify how many seniors live in a particular area. If a credit union branch is interested in developing special services for seniors, the census can provide details on age groups and income levels in that particular seniors population.

The Census is an invaluable tool for many reasons and you are urged to ensure the continued high quality of the Census by reminding your clients, colleagues and employees to count themselves on May 15. The Census of Population and the Census of Agriculture are the biggest surveys conducted in Canada. It takes an army of over 45,000 workers (1,900 in Manitoba) to collect information from every household and on every individual. You can help us to reach everyone by ensuring everyone knows that May 15, 2001 is Census day.

Why should you help? An accurate Census ensures that the information you use to make crucial business and marketing decisions is reliable, comprehensive and all-inclusive. It doesn't cost you to support the Census now, but it will cost you when the information you want isn't there. Please complete and return your forms on May 15, 2001. Manitoba wins when you count yourself in!

NOTE: 1. IN JANUARY OF 1999 STATISTICS CANADA INTRODUCED A NEW SYSTEM FOR CLASSIFYING LABOUR FORCE SURVEY DATA BY INDUSTRY CALLED THE NORTH AMERICAN INDUSTRY CLASSIFICATIONS SYSTEM (NAICS). HISTORICAL DATA BY INDUSTRY BACK TO JANUARY 1987 WAS REVISED ON THE BASIS OF THE NEW CLASSIFICATION SYSTEM. THIS TABLE WAS AFFECTED BY THIS CHANGE AND CONTAINS THE REVISED DATA.
2. ESTIMATES PRESENTED MAY HAVE VARYING DEGREES OF RELIABILITY. FOR FURTHER INFORMATION THE USER IS ADVISED TO CONSULT THE ORIGINAL DATA SOURCE.

DATA SOURCE: STATISTICS CANADA CATALOGUE NO. 71-001.

NOTE: 1. DATA FOR THE MOST RECENT FOUR MONTHS IS ALWAYS PRELIMINARY AND SUBJECT TO REVISION. ESTIMATES FOR THE FOLLOWING INDUSTRY GROUPS ARE INCLUDED IN THE TOTAL: TEXTILE PRODUCT MILLS, PAPER, NON-METALLIC MINERAL PRODUCTS, LEATHER AND ALLIED PRODUCTS, PETROLEUM AND COAL PRODUCTS, COMPUTER AND ELECTRONIC PRODUCTS.
2. IN MARCH OF 2000 STATISTICS CANADA INTRODUCED A NEW SYSTEM FOR CLASSIFYING MANUFACTURING SHIPMENT DATA BY INDUSTRY CALLED THE NORTH AMERICAN INDUSTRY CLASSIFICATIONS SYSTEM (NAICS). HISTORICAL DATA BY INDUSTRY BACK TO JANUARY 1992 WAS REVISED ON THE BASIS OF THE NEW CLASSIFICATION SYSTEM. THIS TABLE WAS AFFECTED BY THIS CHANGE AND CONTAINS THE REVISED DATA.

DATA SOURCE: STATISTICS CANADA CATALOGUE NO. 31-001.

TABLE 44 PRINCIPAL MANUFACTURING STATISTICS, MANITOBA

ITEM	UNIT	1992	1993	1994	1995	1996	1997
